# ASP.NET Web API Help Page

## Introduction

Provide a general description of your APIs here.

## UnitMeasure

API	Description
<a href="#">GET api/UnitMeasure</a>	No documentation available.
<a href="#">GET api/UnitMeasure/{id}</a>	No documentation available.
<a href="#">PUT api/UnitMeasure/{id}</a>	No documentation available.
<a href="#">POST api/UnitMeasure</a>	No documentation available.
<a href="#">DELETE api/UnitMeasure/{id}</a>	No documentation available.

You have created a service.

To test this service, you will need to create a client and use it to call the service. You can do this using the s

```
svcutil.exe http://localhost:8086/adventureworks2019\_wcf/Service1.svc?wsdl
```

You can also access the service description as a single file:

```
http://localhost:8086/adventureworks2019\_wcf/Service1.svc?singleWsdl
```

This will generate a configuration file and a code file that contains the client class. Add the two files to your

**C#**

```
class Test
{
    static void Main()
    {
        Service1Client client = new Service1Client();

        // Use the 'client' variable to call operations on the service.

        // Always close the client.
        client.Close();
    }
}
```

localhost:8086/adventureworks2019 X

localhost:8086/adventureworks2019\_wcf/Service1.svc?singleWsd

This XML file does not appear to have any style information associated with it. The document tree is shown below.

```
<wsi:definitions name="Service1" targetNamespace="http://tempuri.org/">
  <wsi:types>
    <xs:schema elementFormDefault="qualified" targetNamespace="http://tempuri.org/">
      <xs:import namespace="http://schemas.datacontract.org/2004/07/adventureworks2019_wcf"/>
      <xs:element name="DepartmentLista">
        <xs:complexType>
          <xs:sequence/>
        </xs:complexType>
      </xs:element>
      <xs:element name="DepartmentListaResponse">
        <xs:complexType>
          <xs:sequence>
